Subject: CERS EDT Schemas Release Candidate 1

Cal/EPA: CERS Electronic Data Transfer Implementation

The Unified Program's Technology Services Unit is distributing Release Candidate 1 of the CERS2 EDT Schemas, along with a preliminary draft of the CERS EDT Manual (Version 0.7). This technical documentation is specifically targeted toward for information technology professionals and others who have direct responsibility for implementing machine-to-machine, electronic data transfer (EDT) to the Cal/EPA Unified Program's California Environmental Reporting System (CERS2).

The documentation is a ZIP file containing the EDT Manual, the CERS Schemas (XSDs), PDF files with Schema documentation, and sample XML files demonstrating XML package structure (most do not contain real data). The ZIP file is available at:

<https://cers.calepa.ca.gov/TempDocs/CERS2EDTRC1.zip>

Please see the cover letter inside of the ZIP file for further information about providing comments on the release.

CERS2 EDT information is accessible at <https://cers.calepa.ca.gov/EDT/>
