

# CERS Schema Change Log Summary

## Release 1.12 → Release 1.13

*Prepared by John Miller January 3, 2019*

---

This technical document summarizes changes in the CERS EDT XML Schemas since the previous 1.12 Release.

**Release 1.13** affects the Regulator Facility Submittal Query (RFSQ) and Regulator Facility Submittal Submit (RFS) schemas. The MaxLength restriction was increased from 8 to 9 for the BOENumberType type for data element 421 BOE Number in the affected schemas.

As of **January 7, 2019**, the Regulator Facility Submittal Submit and Regulator Facility Submittal Query endpoints have been updated in the CERS EDT Test environment to only accept EDT submittals using the 1.13 version of the RFS schema (RegulatorFacilitySubmittal.xsd) and return XML results using the 1.13 schema version of the RFSQ (RegulatorFacilitySubmittalQuery.xsd).

All public information about CERS EDT is posted at <http://cers.calepa.ca.gov/EDT/>.
